

December 17

DEC 16 1963

Dear Josh,

Our daughter, Mary Imogen Bowes is applying for admission to Stanford as a freshman in Sept. 1964 and I am writing to ask you to endorse her application. You must know that I believe that she is fully qualified for acceptance at Stanford and I recognize that the competition, particularly for female students is keen. Mary's record in Madison and during almost 2 years at the Canadian Academy in Kobe is excellent. Her last report card was all "A" and she has maintained a comparable average throughout her educational programs. Her program this year includes Calculus, San Eastern studies and 3 geopolitics and she has a rich knowledge of San Western culture, especially Japan.

BOWES

Mary's extra-curricular activities have been diverse and for me, most gratifying. She is the first girl to be elected President of the Student Council at Canadian Academy and was the U.S. princess in the Kobe Port Festival. Her career aspiration is in Medicine or Psychology and the present indications are that she will enter Medicine. She can converse in Japanese and read the usual characters. I should be happy to see her attend Stanford and I know that she is eager to enroll at Palo Alto. I urge and I would appreciate any help that you can give her.

I am presently finishing a book on medical education in Japan and my present studies are financed by the Rockefeller Foundation. As of February 1, I will

undertake a study of medical education and needs for
medical manpower in developing countries with support
from the Rockefeller Foundation and the interest of U.S.A.
and the State Department. My personal desire is to
do a study of medical education across the world and
the proposed study should afford such an opportunity. I am
still at Visiting Professor at Kyoto University and we
are living in Koke' just 40 miles away while the youngsters
complete their schooling. We are very happy and I have
no long range plans - just to enjoy my present studies
Merry Christmas -- John.
